Supply of Cheaper Iodised Salt in Rural areas

2223. PROF. M. SANKARALINGAM: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) whether it is a fact that in rural India, people are still using non-iodised salt because they cannot afford iodised salt because of its high price; if so, whether Government have taken any steps to supply iodised salt at a cheaper price in rural areas; and

(b) if so, the details thereof?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE [DR. (SHRIMATI) RITA VERMA]: (a) and (b) The cost of loose iodised salt is marginally higher than the cost of non-iodised salt. Government has impressed upon the State Governments to distribute iodised salt through Fair Price Shop (FPS) under Public Distribution System (PDS) so that it could be made available to the public at cheaper price. 21 States have already included iodised salt under the PDS for its supply to the selected territories.

Spread of Malaria in Orissa

2224. SHRI ANANTA SETHI: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) whether Government are aware of the increasing incidents of Malaria in western Orissa;

(b) whether a large number of people, most of whom have died due to malaria in eight districts of Orissa, are tribals; and

(c) if so, the details of steps taken to save these people from Malaria?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE [DR. (SHRIMATI) RITA VERMA]: (a) As per reports received from the State Health Authorities, there has been an increase of 46.39% of malaria cases during the current year (upto May, 2000) as compared to the cases reported during the corresponding period of last year in the western districts of Orissa.

(b) As the western districts of Orissa are tribals predominant, most of the deaths reported are generally of tribals.

(c) Steps taken to control Malaria include:— Intensification of early detection and prompt treatment of malaria through introduction of presumptive and radical treatment.

Intensification of vector control measures through prioritization of areas.

Intensification of Information Education and Communication (IEC) activities for public awareness and community participation.

Institutional and management capacity building, manpower development through intensive reorientation programme at all levels and efficient Management Information System (MIS).

Intensification of anti-malaria activities under the Enhanced Malaria Control Project (EMCP) with World Bank support by providing additional inputs in 52 Blocks out of 84 Blocks in western Orissa.

Strengthening surveillance and monitoring mechanism by filling up of vacant posts of Medical officers and Para Medical Staff.

Pending proposals on RCH

2225. SHRIMATI CHANDRESH KUMARI: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) whether some proposals/projects on Reproductive and Child Health Care are pending with Union Government;
